

# Business Entity Types

## **Choose wisely.**

Of all the choices you make when starting a business, one of the most important is the type of legal organization you select for your company. As an entrepreneur, be sure to fully consider your options when deciding upon which form of entity to operate under, as your decision will have a significant impact on how income tax rules and regulations affect you and the way you are protected under the law. Speak with your Padgett advisor before choosing to operate as a sole proprietor, partnership or corporation.
